

DRAWING AMENDMENTS

Attached please find corrected drawings in compliance with 37 CFR 1.121(d) and in response to comments 5-7 in the Office Action. The corrected drawings include replacement sheets for Figures 1 (to include all labels mistakenly omitted from the previous replacement sheet), and 2 (to embolden the label “540” and to add the term “data” to the box for “set of animal characteristics data 170”).
